

Smoking materials continue to cause a significant number of wildfires each year. If you, or a member of your family, are a smoker there are a number of things you can do to help prevent wildfires from smoking materials.

- When in the outdoors, smoke in an area free of combustibles such as dry grass, pine needles and twigs. Smoke outside tents and canopies
- Use large, deep ashtrays.
- Dispose of smoking materials in an ashtray or metal can.
- Check campsite for smoldering cigarettes before going to bed.
- Keep matches and lighters away from children.

You can do your part in preventing wildfires by practicing these safety tips while in the outdoor recreation areas of the Pacific Northwest.
